is to furnish you with information not only about your colleagues but about things needed in your practice as well. If the information about services or supplies you want has been omitted—

Professional Collections

THE collection of obligations for professional services is a very special kind of business. It is not cold mathematics, it is not as impersonal as a cash register—it is a problem of handling delicate human relations.

National Discount & Audit Company does not consider itself a "bill collector." We seldom find it necessary to resort to "the law." We recognize that the debtor is just a human being like the people in our own organization. Friendly persuasion is our basic policy.

IF WE DON'T COLLECT—
YOU DON'T PAY

Accounts are taken on a straight no collection — no charge basis. You pay nothing for the reports, for monthly statements . . . for the hundreds of unusual service features that *NDA gives you. You pay for results only . . . and then only a nominal commission.

TO OUR CLIENTS

If you haven't listed all your delinquents, do so now.
The average person's financial status is in a constant state of change. Debtors who were unable to pay a year ago CAN pay today.

Clean house—and concentrate your services and attention on those persons who pay you. We will take care of those who don't. DO NOT DELAY. Inaction encourages the delinquent. When a debtor is four months behind, he needs *NDA service. Take a few minutes and list all additional delinquents — NOW!

BONDED FOR YOUR PROTECTION

We are the only collection company that has given a bond to the New York State Medical Society protecting the accounts of its members.

NEW AND NONOFFICIAL REMEDIES

Products Accepted By The
COUNCIL ON PHARMACY AND CHEMISTRY OF THE AMERICAN MEDICAL ASSOCIATION

Presented here is a tabulation of the "Council Accepted" products listed in the 1939 volume of "New and Nonofficial Remedies" published by the Council on Pharmacy and Chemistry of the American Medical Association to which from time to time new products are added and a few deleted.

Because of limitations of space, these listings have been condensed to the official name of the drug and the name of the manufacturer.

In the 1939 issue of "New and Nonofficial Remedies" much more complete information is given and represents a convenient reference guide which every physician should have. It may be ordered directly from the American Medical Association, 535 North Dearborn Street, Chicago, Ill. The price per volume, bound in cloth, is $1.50 Postpaid.

AIR RAID ON S.M.A.

Just Before the Can is Sealed . . .

To prevent oxidation or change in the physical or chemical composition of S.M.A., the atmosphere is exhausted from the container and is replaced with nitrogen which keeps the contents — S.M.A. — fresh and sweet in any climate.

SMA
A FOOD SPECIALLY PREPARED FOR INFANT FEEDING

The physical and chemical character of S. M. A. is always the same, providing a vitamin A, B_1, and D activity in each feeding that is constant throughout the year.

S.M.A. feedings are always uniform whether they are prepared in Maine or California.

NORMAL INFANTS RELISH S.M.A.—DIGEST IT EASILY AND THRIVE ON IT!

S. M. A. is a food for infants — derived from tuberculin tested cows' milk, the fat of which is replaced by animal and vegetable fats including biologically tested cod liver oil; with the addition of milk sugar and potassium chloride; altogether forming an antirachitic food. When diluted according to directions, it is essentially similar to human milk in percentages of protein, fat, carbohydrate and ash, in chemical constants of the fat and in physical properties.

Why G-E Electromedical Apparatus Merits Your Confidence

FOR THESE ALL-IMPORTANT REASONS WE SINCERELY BELIEVE THAT G-E ELECTROMEDICAL APPARATUS MERITS YOUR CONFIDENCE.

- DIAGNOSTIC X-RAY APPARATUS
- THERAPEUTIC X-RAY APPARATUS
- GENUINE COOLIDGE TUBES
- X-RAY DARKROOM EQUIPMENT
- INDUCTOTHERMS
- FEVER THERAPY EQUIPMENT
- ULTRAVIOLET LAMPS
- INFRA-RED LAMPS
- ELECTROSURGICAL UNITS
- ELECTROCARDIOGRAPHS
- GALVANIC GENERATORS

FOR almost a half-century the medical profession has been buying the products of this organization—in greater volume each year.

A far-sighted management, at the very outset, decreed that since it was immediate recognition of the high standard of quality in these products that led to wider acceptance, it would be folly to jeopardize this reputation while stepping up production to meet the profession's increasing demands.

Strict adherence to this policy throughout the history of the company has proved the soundness thereof. Today, the G-E symbol on electromedical apparatus is recognized the world over as identifying a product representative of the best in scientific design and manufacturing skill. Without unequalled facilities for research and the most modern manufacturing methods, this reputation obviously could not have been maintained year after year.

So, whether it be a small portable diagnostic x-ray unit for the doctor's office, or a million-volt x-ray unit for the tumor clinic, you may be sure that the same degree of care is devoted, in each instance, to making that unit a continual source of reliable service, and therefore a thoroughly safe and satisfactory investment.

Through direct branches established in the principal cities of U. S. and Canada, the convenient availability of factory-trained field men is further assurance, to every G-E user, of satisfactorily operating equipment, practically without interruption.

PREFACE

IN THIS, THE FORTIETH EDITION of the Medical Directory of New York, New Jersey, and Connecticut, are listed the names of physicians who have registered their licenses to practice medicine with the various County Clerks in the three adjoining states, New York, New Jersey and Connecticut. It is published by the Medical Society of the State of New York but the State Medical Societies in New Jersey and in Connecticut have contributed their share to its compilation in the effort to have the information supplied accurate and up to date.

In presenting this information the former methods have in general been followed, but it has been found possible to make some changes that it is hoped will be useful to readers. May we suggest that you glance at the NEW ***Table of Contents*** as well as the NEW page opposite entitled ***How to Use*** so as to become familiar with the new set up?

For the first time, there is included herein in the advertising section an abstract of the drugs listed in the volume put out by the American Medical Association entitled, "New and Non-Official Remedies." All of these drugs have been accepted by the Council on Pharmacy and Chemistry of the American Medical Association. The attention of practitioners is called to this list in the hope that it may be of practical use in everyday work with patients.

The Editors of this edition gratefully tender their thanks to the State Medical Societies of New Jersey and Connecticut for their efficient aid in compilation of this volume.

The Editors also wish to thank the individual physicians for their response to queries as to their professional data.

KEY TO ABBREVIATIONS

Medical School Graduation—The name of the school and year of graduation are indicated by the significant part of the name, leaving out the unnecessary words, e.g. "Cornell, 1910." Readers are particularly cautioned that where the names of certain medical colleges have undergone change the name is herein used as it was on the date of the physician's graduation. Examples follow:

NY Univ—Up to 1898, inclusive
Bellevue—Up to 1898, inclusive
Univ & Bell—1899 to 1934, inclusive
NY Univ—1935 to date

NY Hom—Up to 1935, inclusive
NY Med—1936 to date

LIC Hosp—Up to 1930, inclusive
LIC Med—1931 to date

Abbreviations used to designate medical societies have as the essential signification—the field of medicine with which the society concerns itself; e.g.

"Derm" indicates a dermatological society

If the medical society is national in scope, usually the abbreviation **"Am"** (American), or **"Nat'l"** (National) will precede the essential abbreviation; e.g.

"Am Urol" indicates "American Urological Association"
otherwise it is understood to indicate a local medical organization in that field.

Abbreviations are used to designate the hospital and department in which the physician holds an official title; e.g.

"Derm P-G" indicates "Attending dermatologist" at Post-Graduate Hospital

"Asst Psychiat" means "Assistant Attending Psychiatrist"
(with name of hospital following)

The word "attending" (or visiting) is omitted, but in reconstructing the title it should be included. One exception to this rule exists in the case of the title "consultant" or "consulting"; e.g. **"Cons Path"** should be read "consultant in pathology" or "consulting pathologist".

COMPULSORY HEALTH INSURANCE AND DISEASE CONTROL

By FREDERICK L. HOFFMAN, LL.D.

"The claims made for compulsory health insurance as to the value of medical benefits to the insured population have never been adequately supported by an appeal to national vital statistics showing a decided fall in the mortality in those diseases which would seem to be subject to human control. On the assumption that compulsory health insurance is of the benefit claimed for it in the case of huge masses of insured wage earners, the national death rates for specific causes should make a much more favorable showing than the corresponding death rates in countries not operating such a system of wage workers' insurance." 40 PAGES PRICE 10 CENTS (Special Prices in Quantity)

WHAT IT MEANS
TO BE A DOCTOR

By DWIGHT ANDERSON

Southern Medicine and Surgery:
"A valid argument against state medicine."

Bulletin of the Medical Society of the County of Kings (N. Y.):
"A copy in the waiting room of every physician might do a great deal toward informing the public."

Southwestern Medicine:
"This is one of the most interesting little volumes it has been our pleasure to come across in our browsings through the printed word. . . . It is a well conceived, well written piece of work."

Butte (Mont.) Standard:
"Requires only a few minutes for the reading, but it has great importance."

Cincinnati (Ohio) Enquirer:
"The book affords a wealth of information to the prospective medical student as to what he may expect in his training and practice."

Scranton (Pa.) Catholic Light:
"This splendid narrative brings home to the reader in the most forceful manner it has ever been done, in this reviewer's experience, 'What It Means to Be a Doctor.'"
